

Gilian® 3500 & 5000

Multi-Charger System

- **Modular Flexibility**

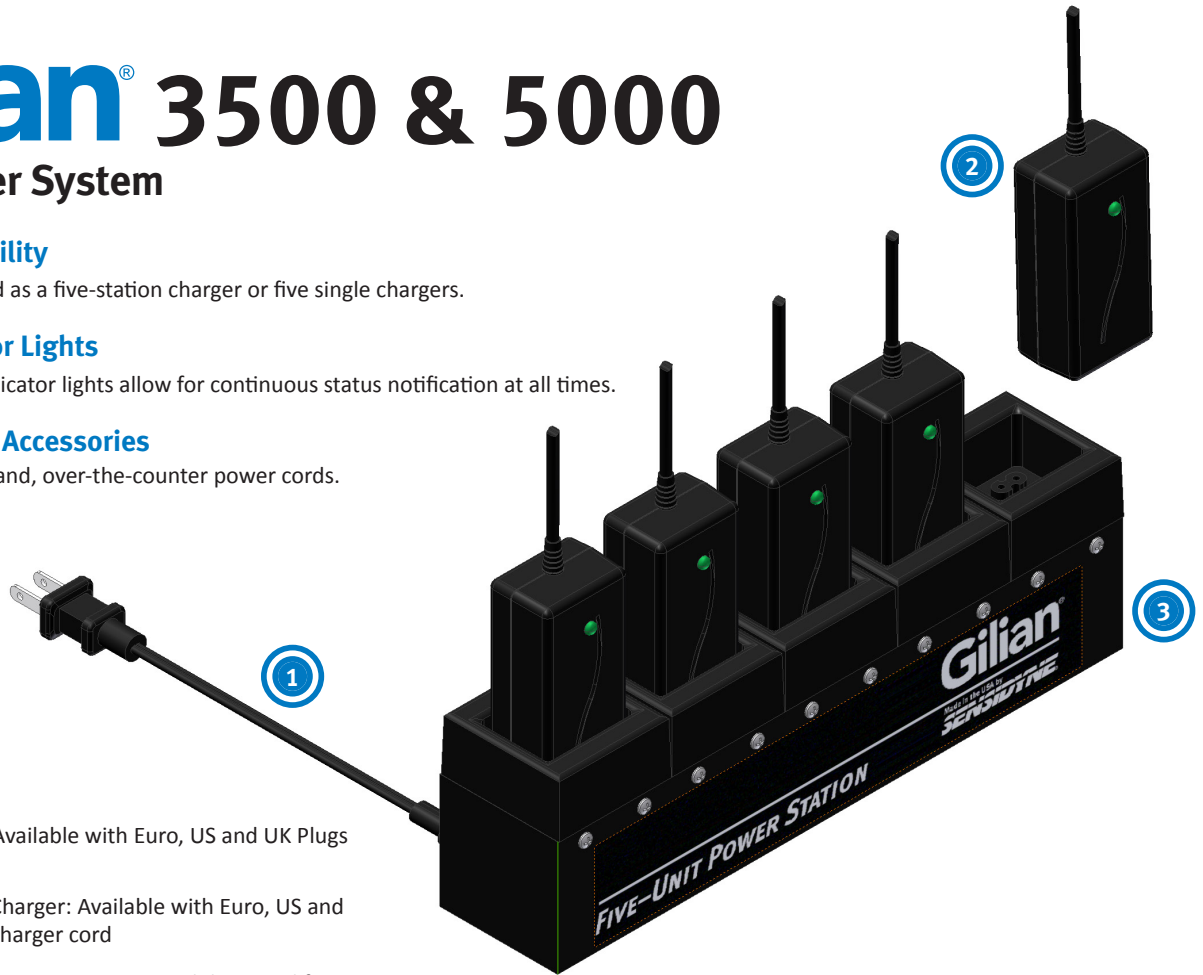

System can be used as a five-station charger or five single chargers.

- **Status Indicator Lights**

Multi-color LED indicator lights allow for continuous status notification at all times.

- **Uses Standard Accessories**

The system uses stand, over-the-counter power cords.

- ① Charger Cord: Available with Euro, US and UK Plugs
- ② Single Station Charger: Available with Euro, US and UK plug or no charger cord
- ③ Five-Unit Power Station: comes with base and five single station chargers – Available with Euro, US and UK plugs or no charger cord

Single station chargers can be removed from the Multi-Charger System and used independently. Using a Single Station Charger independently requires purchase of the optional charger cord.

Indicator Lights

LED Color	Mode/Indication
Red	Fast Charge
Green	Trickle charge
Orange	Idle; No connection; Initialization of charge
Green with orange flash	Topping off charge
Orange with green flash	Battery fault
Red Flashing	Charger fault
