

Now is a good time to upgrade your Air Sampling equipment.

Given the past year, we could all use a little relief. As such, for a limited time customers can enjoy a **10% discount** on new Gilian Air Sampling precision pumps by trading in a competitor's pump or older Gilian pumps – **now through June 2021**.

Smart, precise, dependable, and proven longevity – The worker attributes you want on every job.

EXAMPLES OF TRADE-UP PUMPS

Gilian GilAir Plus Personal Air Sampling Pump

- Widest flow range capability, no flow rate gaps
 - Constant flow 20 cc/min – 5100 cc/min
 - Constant pressure 1 cc/min – 5100 cc/min
- Internal flow control – no low flow or constant pressure adaptors
- Measures sample filter back pressure during sampling
- **Gilian Connect** pump/data management software
- Bluetooth connection option for mobile monitoring
- STP Model option, corrects to standard temperature and pressure
- Data-Logging option
- Continuous operation through the dock and AC Power
- Motion Detection
- NiMH battery
- 2 year warranty on pump

Gilian Power Series Pumps

Achieve highest backpressure of any personal air sampling pump.

- Programmable, Live Flow Display

Pump	Flow Range	Backpressure of H2O up to
Gilian 800i	200-800 cc/min	80" @ 800 cc/min
Gilian 5000	800-5,000 cc/min	70" @ 1,000 cc/min
Gilian 10i	4,000-10,000 cc/min	45" @ 4,000 cc/min
Gilian 12	4,000-12,000 cc/min	67" @ 4,000 cc/min

GilAir PLUS  

Gilian POWER SERIES

10% Off Air Sampling Instrumentation

Gilian®

Details: Receive 10% off the list price of a new Gilian air sampling pump when you trade in a working older Gilian pump or working competitor's pump. Trade-ins are on a 1-for-1 basis (e.g., 1 pump for 1 pump, 5 pumps for 5 pumps, etc.). Limited time offer, good through 6/30/2021 with participating North America Distributors. Working condition will be determined at the discretion of manufacturer.

**To take advantage of this
timely offer, contact:**
